

COVID-19 Testing Program: Important Reminders

- 1 Have your MBL ID ready to pick up your kit at the testing site on the MBL Quad.
- 2 Make sure you follow instructions and activate your kit before you return it.
- 3 Check with your program administrator on your testing window. All tests must be completed by 11:00 AM.
- 4 Before you drop your sample, make sure that:
 - **YOU COLLECTED YOUR SAMPLE.**
If you didn't, get a new collection kit.
 - **YOU ACTIVATED YOUR KIT.**
If not, do it now at color.com/covid/activate. You will need the barcode that's on your collection tube and barcode card.
 - **YOU ARE DROPPING OFF YOUR OWN SAMPLE.**
If there is any chance that it got mixed up with someone else's sample, get a new collection kit.
